

## FAU International Week in Teacher Education

December 2-6, 2019

The International Week in Teacher Education will take place at FAU in Nuremberg and Erlangen from December 2nd to 7th 2019. The week is specifically supposed to highlight existing resources for internationalization at home. Students and teacher educators from FAU and abroad will learn more about different systems of (teacher) education, and about international mobility in teacher education. They network, share knowledge and best teaching practices and engage in courses, lectures and workshops. International guest will present their institutions to prospective exchange students and prepare new projects and exchanges in teacher education. Participants of the international week will contribute to the further development of internationalization in Teacher Education at FAU.

The implementation is coordinated by the ZfL work group "Internationalisierung Lehramt". For further information about the program please contact Prof. Dr. Anatoli Rakhkochkine or Regina Balbach: [zfl-lehramt-international@fau.de](mailto:zfl-lehramt-international@fau.de).
